Case Treatment Review

Chambersburg Hospital Wound Care Center & Summit Podiatry Group

Chambersburg, Pennsylvania

Summit Podiatry Clinicians: Peter Holdaway, DPM, Katherine E. Cashdollar, DPM
Michael Roy Cashdollar, DPM, Michael S Husar, DPM
John Sekel, DPM, Lisa Price, DPM

Patient is a 54-year-old male with a Right Great Toe wound. Patient has a history of diabetes but has always been well controlled. Patient has had the wound for a year during which he was wearing diabetic shoes and used crutches. Wound size was 0.6 x 0.6 x 0.6. Summit Podiatry decided to use the TrueKast with Quicksaw Technology Total Contact Casting System on patient and within 5 weeks after Casting was initiated, the patient's wound was well approximated.
